## WORK EXPERIENCE

### Independent Software Engineer

February 2021 – Currently

Software Analyst and Designer

- Provide technical support for web services on a company dedicated to keep accounts and records in the automotive industry that serves multiple dealers around the US.
- The services are mainly developed using .Net framework for the backend and React and jQuery for the frontend.

### Unidad de Informática Facultad de Ciencias Económicas

March 2019 – December 2020

Junior Software Engineer

- Provide support of the 12 web applications used in the department of Economic Sciences in the National University of Colombia.
- Help with the Requirements elicitation, Development, Testing and Deployment of the new applications for the department of Economic Sciences in the National University of Colombia.
- Provide technical support for the main web page of the department, which has approximately 31.000 visits per month.

## EDUCATION

### UNIVERSIDAD NACIONAL DE COLOMBIA

2016-2022

Bachelor's in Systems and Computer Engineering.

GPA 4.4/5.0

## COURSES

### Coursera:

- Neural Networks and Deep Learning
- Improving Deep Neural Networks: Hyperparameter Tuning, Regularization and Optimization
- Structuring Machine Learning Projects
- Convolutional Neural Networks

### IBM Cognitive Class:

- Data analysis with python
- Data visualization with python,
- Python 101 for data Science.
